In October of each year; paramotor pilots all over the world migrate to Monument Valley, UT for what is arguably one of the most profound flying experiences found in ultralight aviation.

Paramotoring and camping are some of the most exciting ways to immerse yourself in any environment and experience nature. Feel the adrenaline, see the sites, and join Team Fly Halo on it's next paramotor camping adventure.

Special thanks to Byron Leisek, Shane Denherder and Jeff Toll of Team Fly Halo. Also to Brad Scott and Othar Lawrence for film footage and being a part of the adventure. Last but not least, thanks to Kelty and Sierra Designs for the warmth and shelter!
